Renowned as the pinnacle of Japanese Black Beef for its exceptional taste and quality. Produced in Hitoyoshi, Kumamoto Prefecture, it benefits from the region's abundant natural resources and pristine water. The cattle are raised with meticulous care and expertise, supported by a unique management system and the dedication of the people involved. These factors result in a distinct sweetness and tenderness, characteristic of Japanese Black Beef, setting "Kurohana Wagyu Beef" apart from other meats.

100% Midwestern Beef

- USDA Quality: Prime, Choice and Select
- Corn Belt region cattle
- Featured on menus worldwide

- Single plant source consistency
- Superior product yields, trim and workmanship

Customers from around the world know that the corn belt of the Midwestern United States produces livestock of unrivalled quality. Greater Omaha is located in the middle of the largest supply of Angus and Hereford cattle in the world. Place this abundant supply of the very finest beef cattle in the middle of the largest corn-producing region in the U.S., and you have the most consistent supply of the best beef available anywhere in the world.

AUSTRALIA

From a region with a proud history of producing premium food, we are proud to deliver world-class and award-winning Black Angus Beef

Riverina Angus Beef is produced in one of Australia's two integrated feedlot and processing facilities, Riverina 517. Modelled off Japanese beef expert design for well marbled grain fed beef production, at Riverina, cattle are walked from the feedlot to the plant. This reduces animal stress, carbon emissions and transportation costs while simultaneously maximising animal welfare and, improving performance and eating quality. And as a completely hormone free feedlot and processing facility, all beef produced out of Riverina 517 is guaranteed to be free from added hormones.

Hormone Free Black Angus Beef from Australia's Riverina region!
